- (6) In the cases referred to in subsection (5) of this Section, the regulations may prescribe circumstances in which procurement may be carried out by force account, in which the procurement is carried out with self-supervision, utilizing the Procuring Entity's own existing personnel and equipment or those of another Government institution.

 - (d) Where it has been demonstrated that force account is the only practical method for constructing and maintaining works under special circumstances;

- (2) The Procuring Entity is not required to employ national open competitive bidding procedures if the estimated contract price of the procurement is less than the ceiling Threshold applicable to another method of procurement permitted by this Act.
- (3) The invitation to bid shall be Published as required by this Act.
- (4) When national open competitive bidding is utilized, at least four (4) weeks shall be allowed for submission of bids in order to allow sufficient time for the invitation to reach candidates and to enable them to prepare and submit bids.
- (5) The Commission may by regulation establish procedures for reducing the time period required under subsection (4) of this Section on application of the Procuring Entity to the Commission and a showing by the Procuring Entity that a reduction in the time period for an individual contract or a class of contracts will not significantly reduce competition.

49. International Open Competitive Bidding

- (1) The Procuring Entity shall employ international open competitive bidding procedures when
 - (a) the estimated contract price of the proposed procurement is higher than the ceiling Threshold establish by Regulations promulgated by the Commission for national open competitive bidding unless the Commission approves the use of national open competitive bidding on application by the Procuring Entity to the Commission and a showing by the Procuring Entity that sufficient competition exists at the national level; or
 - (b) there is no response to a national open competitive bidding proceeding.

- (2) When restricted bidding is employed on the grounds referred to in Section 50(1)(b), the Procuring Entity shall solicit bids from at least five (5) bidders, if possible.
- (3) The Commission may by regulation provide that a Procuring Entity may establish lists of prequalified bidders for restricted bidding of specific types of goods, services or works. The regulations must provide for regular updating of each such list in a manner that gives new bidders fair opportunity to join the list and must limit the use of outdated lists. If a current list of bidders created in compliance with such regulations is applicable to a proposed restricted bidding procurement, it must first be utilized in procuring by the restricted bidding method before considering other bidders.

 - (c) When the procurement is for services and the estimated contract price does not exceed the applicable Threshold.
- (2) The Commission may by regulation establish procedures whereby Procuring Entities may make repetitive purchases of goods or services described in clauses (a) and (c) of subsection (1) of this Section from a list of prequalified bidders without the necessity of utilizing the request for quotations method for

each purchase. The regulations must provide for regular updating of the list in a manner that gives new bidders fair opportunity to join the list and must limit the use of outdated lists.

54. Basic Procedures for Requests for Quotations

- (2) The request shall contain a clear statement of the requirements of the Procuring Entity as to quality, quantity, terms and time of delivery, as well as any other special requirements.

- (4) Although this Part VI provides for the negotiation of definitive Concession contracts following the identification of a successful bidder, it is preferable to structure Concession bids so that the terms of the bid (a) include a definitive agreement and (b) require the successful bidder to enter into the definitive agreement following the identification of the successful bidder. If the bid is so structured, the Concession Entity may give prequalified bidders the opportunity to review and comment on the proposed form of agreement before the bid documents are finalized and released to the bidders.
- (5) A Concession bidder by its bid is deemed to have accepted the terms and conditions of the bid. The Entity Concession Committee shall establish its own rules for determining the time, place and procedure of meetings, and shall act by the vote of a majority of its members.
- (4) The Procurement Committee established for an Entity under Section 26 of this Act may not function as the Entity Concession Committee for that Entity, but members of the Entity's Procurement Committee may be designated as members of an Entity Concession Committee for the Entity if they possess the requisite skills and experience.

95. Competitive Bidding

- (1) Unless otherwise permitted by Section 101 of this Act, Concession bidding proceedings shall be undertaken by means of advertised open bid proceedings, to which equal access shall be provided to all eligible and qualified bidders without discrimination, except that Concession bidding shall utilize prequalification of bidders unless the relevant Inter-Ministerial Concessions Committee concludes that it is highly likely that only a small number of bidders will be interested, in which case bidder qualifications shall be evaluated post-bid.
- (2) Notwithstanding subsection (1) of this Section, the grant of license or Concession under section 75(1) b may not be subject to open competitive bidding process provided that:

96. National Competitive Bidding

- (1) National competitive bidding for Concessions may be used when:
 - (a) Section 97(1) does not require international competitive bidding, and
 - (b) the Inter-Ministerial Concessions Committee has reasonably concluded that the project is so limited in scope that it is unlikely to be of interest to foreign investors.
- (2) National competitive bidding for Concessions must be used when it is concluded that the Concession falls within an area of the economy which is by law restricted to Liberians (in which case only Liberian Businesses may bid or participate in a bidding consortium).

97. International Competitive Bidding

- (1) International competitive bidding must be used when one or more of the following conditions exist:
 - (a) The project requires international expertise;

99. Criteria for the Application of Margin of Preference in Concessions

- (1) A Concession Bid Evaluation Panel may allow to an otherwise technically and financially qualified Domestic Business or Liberian Business a Margin of Preference.
- (2) The Commission may by regulation approved by a committee of the statutory members of each Inter-Ministerial Concessions Committee establish a Margin of Preference for Concessions or particular types of Concessions that grants a price preference to the bidder who (a) commits in its bid to the highest percentage of goods manufactured in Liberia and services delivered by persons resident in Liberia in excess of a threshold that may vary by industry, and (b) sets forth in its bid reasonable ways for assuring performance of its commitment. Any such regulation shall set forth a realistic program for policing such commitments, and shall provide appropriate penalties for non-compliance including, in severe cases, an obligation to rebate to the Government the amount of the price preference granted. Notwithstanding the generality of this subsection, the Commission shall ensure that the criteria for the Margin of Preference applicable to Concessions shall, as much as possible, be consistent with the provisions of Section 45 of this Act.
- (3) Regulations proposed under this Section 99 must be published for comment in the manner required for international competitive bids at least 90 days prior to any action by the Commission to approve or declare effective such regulations.

100. Restricted Competitive Bidding

Subject to the approval of the Commission, Restricted Competitive Bidding shall be employed where the Concessions Entity has pre-qualified bidders in accordance with the provisions of this Act.

101. Sole Source and Unsolicited Bids

- (1) A Concession may be granted on a sole source basis only upon a determination by the Cabinet, after consultation with the Commission, that sole source procurement is the only reasonable way of obtaining the resource controlled by the bidder and one or more of the following conditions is determined to exist:
 - (a) The Concession requires specialized expertise that is available only to one specific bidder;
 - (b) The Concession involves an innovation the patent for which is held by one particular bidder;
 - (c) The Concession requires specialized research, or experiment that only one person is prepared to undertake; or
 - (d) The Concession is in respect of strategic national interest or national defense or security and it is not in the national interest to have more than one bidder.
- (2) In any such case:
 - (a) the determination required by subsection (1) of this Section must be made and a copy of the determination must be published on the website of the Commission at least two weeks before any negotiations occur; and
 - (b) the agreement with such sole bidder constitutes a Concession agreement that must be developed and negotiated in accordance with the provisions of this Part VI applicable to the development and negotiation of Concession agreements., beginning with the development of a Concession Procurement Plan in Section 79 through to basic due diligence as to the existence of the bidder's claimed technical and financial capacity and negotiation of the agreement as contemplated by Sections 118 through 121 of this Act, excepting those provisions that cannot rationally be applied in the absence of multiple bidders.
- (3) Unsolicited bids for Concessions are subject to the provisions of this subsection (3).
 - (a) A bid or proposal for a Concession provided by a person at the suggestion of a Ministry or agency of the Government that has not been approved as a sole source bid under the provisions of subsections (1) and (2) of this Section and that is not submitted in response to a formal invitation to bid issued under this Part VI is an unsolicited bid.

- (b) No Concession Entity has any obligation to evaluate, negotiate, or accept an unsolicited bid,
- (c) A Concession Entity wishing to consider an unsolicited bid shall request the formation of an Inter-Ministerial Concessions Committee that will arrange for the formation of a Concession Bid Evaluation Panel to conduct an independent assessment of the quality of the unsolicited bid and the qualifications and reputation of the bidder,
- (d) The Concession Entity may not enter into negotiations with such a bidder unless the Concession Bid Evaluation Panel has concluded that (i) the bidder has the technical and financial capacity to perform its obligations under such agreement, (ii) there is no reason to believe that the terms offered by the bidder could be improved through submission of the proposal to a competitive bidding process, and (iii) the award of a Concession to that bidder would not lead to a situation in which it would be difficult or impossible for an effective competitive operation to arise;
- (e) Any agreement with the bidder shall be negotiated by a Negotiation Team in accordance with the requirements of this Part VI applicable to the negotiation of Concession agreements, excepting those provisions that cannot rationally be applied in the absence of multiple bidder.

No unsolicited bid may be accepted or accepted as a basis for negotiations until the Commission has adopted regulations implementing this subsection (3), including criteria and procedures for accepting an unsolicited bid or determining that the proposal must first be put to a competitive bid. The regulations may provide some form of preference to the original unsolicited bidder if competitive bidding is elected or required, either through a reasonable price advantage or, if the original proposal is not structured so that it can be performed only by the bidder, through requiring other bidders to conform their project proposal (general size and scope) to the bid presented by the unsolicited bidder.

102. Prequalification or Qualification of Bidders

- (1) If prequalification of bidders is required, the prequalification process shall be conducted in compliance with the requirements of subsections (4) and (5) of Section 32 of this Act. Only bidders that have been prequalified shall be entitled to receive the invitation to bid and to submit bids.
- (2) The qualification criteria shall be objective in nature, shall be approved by the Inter-Ministerial Concessions Committee, and shall include at least the relevant components set forth in subsection (1) of Section 32 of this Act.
- (3) A Concession Entity may require prospective bidders to submit documentation verifying their qualification data.
- (4) All applicants who meet the minimum criteria for prequalification shall be invited to bid.
- (5) Where prequalification proceedings are not conducted, post-qualification, in which the Concession Bid Evaluation Panel verifies the qualifications of the bidder selected for award against the criteria stated in the bid documents, shall be used. The principles of this Section apply to qualification criteria set forth in the bid documents.
- (6) If a bidder wishes to have the financial, technical or other qualifications of an entity other than the bidder taken into account in the qualification process, the bidder must in its qualification submission
 - (a) set forth the qualifications of such other entities and clear statements of the contributions to the proposed Concession (financial, technical or otherwise) that each such entity is to make,
 - (b) provide an undertaking from each such other entity to the effect that (i) it has consented to be named in the bid, (ii) the statements made about it in the bid documents are true and correct, and (iii) it is prepared to participate in the transaction on the terms set forth in the submission, and
 - (c) provide the form of agreement pursuant to which such other entities will agree with the bidder to provide such contributions. The agreement must be executed if the submission is a bid, rather than a response to a request for expressions of interest.
- (7) Any change in the identity of such other entities or their proposed contributions after the bidder has been prequalified and invited to bid is subject to a written approval of the Concession Bid Evaluation Panel prior to the deadline for submission of bids. Such approval shall be denied if as a consequence of the change the bidder no longer meets the qualification criteria

established for the proposed Concession, or if a substantial reduction in competition would result. Any such change after the submission of the bids shall disqualify the bidder.

- (8) Any such agreement provided pursuant to subsection (7) of this Section shall require that either (a) the bidder and each such other entity assume joint and several liability for the performance of the obligations to be undertaken by the entity becoming a party to the Concession agreement, or (b) one or more members of the group with the capacity to bear financial responsibility for all such obligations assumes the entire liability. Whichever alternative is elected, the bidder and any such other entities may agree among themselves to allocate among themselves costs actually incurred in discharging such liabilities in any manner they choose after their liabilities under such agreement are discharged.
- (9) Evaluation of prequalification submissions is to be made by the Concession Bid Evaluation Panel created pursuant to Section 111 of this Act, and the results shall be submitted to the Inter-Ministerial Concessions Committee. The Inter-Ministerial Concessions Committee shall remove a bidder from the proposed prequalified list submitted by the Concession Bid Evaluation Panel if (and only if) the Inter-Ministerial Concessions Committee makes written findings that a prospective bidder clearly lacks the legal, technical and/or financial capability to carry out the project, or the prospective bidder's prequalification submission is materially false or misleading (other than in the case of an obvious mechanical or typographical error). The resulting list of prequalified bidders shall be final.

Sub-Part 4 – Concession Documents Preparation

103. Performance of Preliminary Feasibility Studies

The Inter-Ministerial Concessions Committee may require a Concession Entity to undertake preliminary or prefeasibility studies to determine the feasibility of a proposed Concession prior to completion of the related Concession Procurement Plan. Any such study shall normally be carried out with the assistance of experts retained as contemplated by Section 78 of this Act.

104. Concession Bid Documents

106. Publication of General Notice of Investment Opportunity, Expression of Interest and Invitation to Public

- (1) In national competitive bidding, the Concession Entity shall Publish a general notice of investment opportunity, a request for expressions of interest (unless prequalification is not required in the specific case) and a invitation to bid (notice of availability of bidding documents). The general notice of investment opportunity shall be Published at least three (3) weeks prior to the Publication of the request for expressions of interest. Bidders shall be allowed at least [three (3)] weeks to respond to the request for expressions of interest and at least [four (4)] weeks to respond to the invitation to bid.
- (2) In international competitive bidding, the Concession Entity shall Publish a general notice of investment opportunity, a request for expressions of interest (unless prequalification is not required in the specific case) and the invitation to bid (notice of availability of bidding documents). Bidders shall be allowed at least four (4) weeks to respond to the request for expressions of interest and at least [six (6)] weeks to respond to the invitation to bid.
- (3) Notwithstanding the definition of "Publish" a general notice of investment opportunity need not be "published" in the manner required by clause (c) of such definition.

107. Publication of Regulations

The Commission may issue specific regulations or guidelines regarding any or all public notices required under this Part VI, and may expand the requirements beyond those set forth in this Part VI.

Sub-Part 5 – Pre-Bid Meeting, Bid Submission and Opening

108. Pre-Bid Meeting; Bidder Requests for Clarification

The Entity Concession Committee or the Inter-Ministerial Concessions Committee may require that a pre-bid conference may be organized to give prospective bidders the opportunity to seek clarification and to obtain additional information on the requirements of the Concession or clarify issues set out in the Concession bid document. A writing summarizing all clarifications or additional information provided at any such meeting shall be distributed to all bidders. Section 33 of this Act is applicable to requests by bidders for clarification and supplemental bid information and requirements as though it applied to Concession Entities, except that the time period referred to in the last sentence of such Section 33 shall be three (3) weeks.

109. Particulars of the Pre-Bid Conference

The date, time and venue of any pre-bid conference shall be specified in the invitation to bid or by notice to all bidders given by facsimile or email at least ten (10) days prior to the conference, as the case may be, and shall in any case occur not less than fourteen (14) days after the Concession bid documents first become available to bidders.

110. Submission and Opening of Bids

- (1) All responses to an invitation to bid that have been timely submitted shall be opened at the time and place scheduled in such invitation to bid and in the presence of such of the bidders, their representatives or agents who choose to attend.
- (2) The bid submission and opening shall observe the rules of bid submission and opening under Sections 59 (as they may be modified to accommodate a two envelope bidding process), 61, 62 and 63 of this Act.
- (3) In the case of two envelope bidding, the bid documents shall specify the procedure for opening of the technical and financial envelopes.
- (4) If necessary to complete the evaluation of the technical envelope any scheduled opening of a financial envelope may be postponed on notice by telephone, facsimile or email to all bidders of the new time and place for opening the financial envelope. Any such postponement shall be for at least two (2) days.

Sub-Part 6 – Evaluation

111. Concession Bid Evaluation Panel and Evaluations

- (1) Evaluation of responses to prequalification requests or invitations to bid shall be undertaken by a Concession Bid Evaluation Panel that is appointed for each Concession by the relevant Inter-Ministerial Concessions Committee. Any reference to a Concession Bid Evaluation Panel with respect to a specific Concession means the Concession Bid Evaluation Panel constituted for that Concession. A Concession Bid Evaluation Panel, when formed, shall establish its own rules of procedures, and shall act only through a majority vote of all of its members. The National Bureau of Concessions shall be a permanent institutional representative on all Bid Evaluation Panels. The Chairperson of a Bid Evaluation Panel shall be appointed by the relevant Inter-Ministerial Concessions Committee.
- (2) The Inter-Ministerial Concessions Committee is responsible for ensuring that each member of a Concession Bid Evaluation Panel has the training and experience appropriate for the evaluation of the prequalification submissions or bids under consideration.
- (3) A Concession Bid Evaluation Panel should normally include as regular voting members one or more qualified individuals who are not officials or employees of the Government so long as a majority of the members are officials or employees of the Government. The Inter-Ministerial Concessions Committee or the Concession Bid Evaluation Panel itself may also designate individuals or institutions to act as non-voting advisers to or observers of the deliberations of

the Concession Bid Evaluation Panel in compliance with Section 78 of this Act. A member may not designate an alternate, and if a member consistently fails to attend meetings, the chairperson or vice chairperson shall notify the Inter-Ministerial Concessions Committee, which must promptly replace the member.

- (4) For the avoidance of doubt, (a) Heads of Entities may not be members of a Concession Bid Evaluation Panel, and (b) the Minerals Technical Committee referred to in the Mining Act may not serve as a Concession Bid Evaluation panel under this Act.
- (5) Each Concession Bid Evaluation Panel is an ad hoc body and shall be deemed to be dissolved once its report is acted upon by the relevant Inter-Ministerial Concessions Committee in accordance with Section 118(1).

112. Certainty of Evaluation Criteria

No criteria shall be used for evaluation of bidders or of a bid that was not identified in the documentation made available in the request for expressions of interest or in the bid documents, provided that the evaluation criteria may be modified by notice to all bidders at least three weeks prior to the due date of the prequalification submission or the bid submission (as the case may be) in the manner contemplated by Section 33(2) of this Act.

113. Minimum Contents of the Evaluation Criteria

- (1) The evaluation criteria applicable to a request for expressions of interest (prequalification) shall take into consideration the particular requirements of the proposed Concession and the nature of the expertise required for efficient and effective implementation of the Concession.
- (2) The evaluation criteria applicable to an invitation to bid shall be designed to attain the objects of the Concession and shall include at least the following:
 - (a) Compliance of the bidder with any specific technical and financial requirements stated in the bid documents (including any required bid security);
 - (b) Technical and financial capacity of the bidder to carry out all phases of the proposed project;
 - (c) Technical feasibility of the proposal;
 - (d) Effectiveness of the methods and resources to be deployed;
 - (e) In the case of infrastructure projects for the delivery by private entities of public services or facilities that will serve the general public where the bidders are not bidding to provide contract-mandated

levels of service, the magnitude of the planned service level improvements over the Concession period;

- (f) If the Government has adopted an overall strategic objectives and national development plan, the extent to which the proposed Concession contributes to the realization of such plan;
- (g) Technology transfer;
- (h) Impact on the environment and compliance with environmental laws and regulations;
- (i) Expected effect of the Concession on national income, employment of Liberians, the communities affected by the Concessions (social impact considerations), industries and other sectors of the economy;
- (j) Direct financial benefits flowing to the Government from the award of the Concession;
- (k) Negative impacts on Government revenues of any financial concessions proposed to be granted; and
- (l) Any Margin of Preference applicable in accordance with Section 99 of this Act.

114. Prohibited Criteria in Evaluation

The criteria for the selection of responsive bidders shall not at any stage include any of the following (provided that clauses (b) and (c) of this Section 114 shall not be applied to limit the ability of the Concession Bid Evaluation Panel to apply in good faith criteria reasonably designed to require actions by Concession holders to minimize adverse environmental impacts of proposed Concessions, to mitigate the adverse social impact of Concessions, and to improve the quality of life in the communities affected by their operations):

- (a) Criteria that cannot be reasonably interpreted as a condition meant to elicit the attainment of any of the principles provided for under this Act;
- (b) Criteria that are non-commercial in character and which will not lead to the attainment of the objectives of the Concession arrangement;
- (c) Ambiguous criteria the interpretation of which can be subjective;
- (d) A criterion or condition that leads to the grant of the Concession to particular persons or group of persons;
- (e) A criterion or condition designed to facilitate the selection of a known bidder in contravention of the competitive process; and

- (f) A criterion or condition that will promote the corruption of the entire or part of the Concession procurement process.

Sub-Part 7 – Post-Evaluation

115. Evaluation Report

- (1) A Concession Bid Evaluation Panel shall seek to conclude the evaluation and submit its evaluation report to the Inter-Ministerial Concessions Committee within the period set forth in the bid documents. The Inter-Ministerial Concessions Committee may extend the period specified as necessary to enable a fair and comprehensive evaluation of the bids submitted, and shall notify all bidders of each such extension.
- (2) A Concession Bid Evaluation Panel evaluation report shall include at least the following:
 - (a) A report on the responsiveness of the bids to the requirements set out in the invitation to bid;
 - (b) Results of the technical evaluation;
 - (c) Results of the financial evaluation;
 - (d) An overall ranking of bidders, identifying any bidders to be disqualified because their bids fail to respond to mandatory requirements of the bid documents or because they have been determined in the evaluation process not to meet the minimum standards set for qualification, as set forth in the bid documents; and
 - (e) A recommendation that the bidder with the highest overall score (above any minimum level required to qualify for negotiations) be invited for negotiations.
- (3) The evaluation report shall be accompanied by a summary of the results of the due diligence performed in accordance with Sections 116 of this Act (including a discussion of how the bid evaluation was affected by the due diligence reports), to which are attached all due diligence reports obtained with respect to each bidder and, in a clearly labeled subsection, all computations required by subsection (2)(d) of Section 116 of this Act.
- (4) An evaluation report shall not give significant weight to proposals of future performance by bidders that are contingent on future events the occurrence of which is not within the bidder's control.
- (5) Due diligence may not be used to raise a bidder's ranking above the ranking awarded by the Concession Bid Evaluation Panel based solely on the submissions of the bidders, even if due diligence reveals aspects of the bidder's

business or operations that would have given the bidder additional credit had they been set forth in the bidder's submission.

116. Due Diligence

- (1) The due diligence required by this Section shall be undertaken by competent persons for all bidders submitting responsive bids. If a bidder submission shows that the bidder is relying on other entities to establish the necessary financial or technical capability, as contemplated by subsections (1) and (2) of Section 113 of this Act, the due diligence must extend to the entity or entities claimed to provide the necessary technical or financial capacity. References in this Section and in Section 118 of this Act to "the bidder" shall be interpreted as applying to the bidder and each such other entity.
- (2) Due diligence shall at a minimum include the matters set forth below, and should cover such other matters as the Concession Bid Evaluation Panel determines to be appropriate in light of the nature and scope of the proposed Concession:
 - (a) Authenticity of the claims of technical and financial capability and technical experience made by the bidder;
 - (b) Verification that the bidder is not (and is not controlled by) a person disqualified under this Act or other applicable law;
 - (c) Verification of the legal ability of the bidder to carry out its bid obligations, which shall in the first instance be verified by the submission by the bidder of opinions of established law firms entitled to practice in the relevant jurisdictions regarding:
 - i. the legal organization and existence of the bidder,
 - ii. its legal authority to submit its bid and perform the obligations proposed to be undertaken pursuant to its bid,
 - iii. the submission of its bid not violating any laws, rules or regulations to which it is subject under the laws of its jurisdiction of organization or the jurisdiction in which its chief executive offices are located, or any agreements by which it is bound, and
 - iv. the corporate authority of the persons executing the bid documents to bind the bidder;
 - (d) If the bids involve proposals that the Concession agreement provide adjustments, favorable to the bidder, in the tax and other fiscal obligations of the bidder at the time existing under generally

applicable laws and regulations, computations of the individual and aggregate impact of those adjustments on the revenue of the Government over 25 years and, if longer, over the estimated life of the Concession (but not more than 40 years).

2/

- (3) The Concession Bid Evaluation Panel shall solicit recommendations from the Concession Entity and other interested ministries and agencies as to the organization or organizations that will undertake due diligence. Due diligence should be performed by independent organizations that had no involvement in preparing any bid relating to the proposed Concession, are not affiliated with any bidder for the proposed Concession or any other proposed Concession of the same type, have no pattern of being retained by any bidder for the proposed Concession, and have the technical skill and experience to undertake the required due diligence. Once organizations are selected in accordance with Section 78, the Concession Bid Evaluation Panel shall organize and coordinate the due diligence to be performed. The actions required by this subsection (3) should normally take place between the time bidding documents are delivered to the prospective bidders and the submission of the bids.
- (4) Promptly after the bids are opened (the technical bids, if two-stage bidding is used), the Concession Bid Evaluation Panel shall assess the bids to determine whether additional due diligence is appropriate, inform the Inter-Ministerial Concessions Committee of its conclusions, and act on the instructions of the Inter-Ministerial Concessions Committee. Due diligence shall commence as promptly as possible after the opening of the bids, and must be completed prior to the preparation by the Concession Bid Evaluation Panel of its report under Section 115 of this Act.
- (5) If the Concession Bid Evaluation Panel concludes at any point in the evaluation process, based solely on the bid submissions, that a bidder has no realistic prospect of being considered in the top group of bidders, it may suspend due diligence on that bidder. If at a later date new information seems likely to result in that bidder being ranking among the top group of bidders, the suspended due diligence must be completed prior to ranking that bidder in the evaluation report of the Concession Bid Evaluation Panel.
- (6) The Inter-Ministerial Concessions Committee may request the performance of additional due diligence with respect to any bidder after the submission of the Concession Bid Evaluation Panel of its report under Section 115 of this Act. Unless a bidder is disqualified by the Inter-Ministerial Concessions Committee based on such additional due diligence, as contemplated by clause (b) of subsection (1) of Section 118, any new information obtained through additional due diligence shall be furnished to the Concession Bid Evaluation Panel which shall rerank the bidders on the same scale on which they were originally ranked, taking into account the new information.
- (7) Notwithstanding any due diligence performed, the conditions to the effectiveness of every Concession agreement shall include such legal opinions and representations and warranties with respect to all entities undertaking obligations to the Government in respect of the Concession as are customary in international practice or as are appropriate to confirm the continuing accuracy

of the information provided by the bidder in its bid submission or contained in the legal opinions provided by the bidder as a part of its bid submission.

- (8) The costs of due diligence shall be borne by the Concession Entity to the extent not borne by the bidders. All fees collected from prospective bidders in connection with a request for expressions of interest or an invitation to bid shall be applied by the Ministry of Finance to reimburse the Concession Entity for the costs of the due diligence.

117. Form of Contract; Role of Ministry of Justice in Developing Contract

- (1) The form of each Concession agreement shall be developed by the Concession Entity and approved by the Inter-Ministerial Concessions Committee prior to negotiations. The agreement shall be approved as to legal form by the Ministry of Justice prior to submission to the bidder, or, if and to the extent the final form of the agreement is included in the bid documents, prior to the release of the bid documents to the bidders.
- (2) The Concession agreement as executed shall be approved by the Minister of Justice as complying with the requirements of this Act and any other applicable law before submission to the President and Cabinet for approval.

118. Review of Evaluation Report; Negotiations

- (1) The Inter-Ministerial Concessions Committee shall review the evaluation report and take one or more of the following actions:
 - (a) Approve the report and the bid ranking if neither clause (b) nor clause (c) of this Subsection (1) is applicable;
 - (b) Take note of the due diligence performed and disqualify a bidder if, notwithstanding the ranking of the bidder by the Concession Bid Evaluation Panel, the due diligence demonstrates that the bidder clearly lacks the legal, technical and/or financial capability to carry out the project, or that the bidder's bid documents are materially false or misleading (other than in the case of an obvious mechanical or typographical error), and approve the report and bid ranking after giving effect to any such disqualifications; or
 - (c) Determine, with the approval of the Cabinet, that the best interests of the Government require the cancellation of the Concession bid process or the rejection of all bids, and in any such case the Inter-Ministerial Concessions Committee, without liability to any bidder:
 - i. may require rebidding the project or decide that the project shall not at the time be rebided (without prejudice to restarting the Concession bid process at a later date);

- ii. must give promptly to all bidders written notice of the cancellation or rejection and any decision to rebid the project; and
 - iii. must return any unopened bid to the bidder submitting that bid.
- (2) Neither the Head of the Concession Entity nor the Inter-Ministerial Concessions Committee shall have the power to alter an evaluation report submitted by a Concession Bid Evaluation Panel or to request changes in the ranking established by the Concession Bid Evaluation Panel. The Inter-Ministerial Concessions Committee shall consult with the Minister of Justice before taking any action referred to in subsection (1)(b) or (1)(c) of this Section.
- (3) Any disqualification of a bidder shall be in writing, shall set forth the reasons for disqualification and shall be promptly furnished to all bidders.
- (4) The Inter-Ministerial Concessions Committee shall notify the Commission and the President of the action taken by the Inter-Ministerial Concessions Committee pursuant to subsection (1) of this Section. The notice under this subsection shall contain at least the following information:
 - (a) Name of the first, second and third ranked bidders;
 - (b) Name of any bidder disqualified under subsection (1)(b) of this Section; and
 - (c) Statement of actions taken under subsection (1)(c) of this Section.

- (5) Within fourteen (14) days after notice of approval of the evaluation report by the Inter-Ministerial Concessions Committee pursuant to clause (a) or (b) of subsection (1) of this Section, the President shall appoint a Negotiation Team upon a recommendation of the IMCC for the conduct of the negotiations with the highest ranked bidder. Each Negotiation Team shall consist of the Head of the Concession Entity, the chairperson of the National Investment Commission, the Minister of Justice, the Minister of Finance, and three Persons designated by the President, two of whom shall be Cabinet members. The chairperson of a Negotiation Team shall be a Cabinet member designated by the President. Each Negotiation Team will report to and will be responsible to the President.
- (6) Each Negotiation Team shall organize a technical team to support its work. The team shall include qualified Government employees and relevant qualified legal and technical advisers (who may include paid or pro bono international advisors) retained in accordance with Section 78 of this Act.
- (7) It is not required that all members of a Negotiation Team be present at all negotiating sessions so long as procedures are established in the particular case for keeping the members of the Negotiation Team informed and for the participation of the entire Negotiation Team in all material decisions. No such procedures shall excuse a member of the Negotiation Team from responsibility for the negotiations unless the member dissents in writing from the procedures adopted or from a specific decision of the Negotiation Team and files that writing with the President prior to the approval of the Concession agreement by the Government.
- (8) Subject to subsection (7) of this Section, negotiations shall be entered into with the highest ranked bidder indicated in the evaluation report and approved by the Inter-Ministerial Concessions Committee as contemplated by subsection (1) of this Section. In the event of the breakdown of the negotiations, the Negotiation Team shall consult with the Inter-Ministerial Concessions Committee as to the advisability of seeking to continue negotiations with the highest ranked bidder, or commencing negotiations with the next ranked bidder, or conducting competitive negotiations concurrently with both the highest ranked bidder and the next-ranked bidder or cancelling the bid process.

119. Issues to be Considered at the Negotiations

- (1) To the extent that the bid documents do not provide that contract provisions set forth in the bid documents are non-negotiable, the Negotiation Team shall take the following into account, within the context of existing laws, in its negotiations with the prospective concessionaire:

- (b) Standards of performance including service, deadlines, safety, compliance and operating/maintenance requirements

 - (y) Provisions which may survive termination of the contract (e.g. arbitration, confidentiality)
 - (z) Contract amendment process
- (2) The Inter-Ministerial Concessions Committee may expand on these issues for negotiations for any particular Concession, but any additional requirements must have been reflected in the bid documents.
- (3) If as a result of negotiations it is proposed that the Concession agreement provide adjustments, favorable to the bidder, in the tax and other fiscal obligations of the bidder at the time existing under generally applicable laws and regulations, the Negotiation Team must with the assistance of the Minister of Finance prepare and deliver to the President (and the Legislature where approval by the Legislature is required), high and low estimates of the impact of those adjustments on the revenue of the Government over the initial twenty five (25) years of the operations of the Concession holder, together with high and low estimates of the net royalties and tax revenues likely to be receivable from the bidder of the same period, accompanied by sufficient narrative to make clear the assumptions (which must be reasonable in light of the facts and circumstances at the time) surrounding each estimate.

120. Confidentiality Agreement

The Concession Entity may enter into a confidentiality agreement with a bidder invited for negotiations that restricts the bidder, the Concession Entity and the members of the Negotiation Team from disclosing information in accordance with internationally accepted standards of confidentiality in such cases. No provision of any such agreement may limit the disclosure obligations of the Government under applicable law or pursuant to international agreements or arrangements to which Liberia has subscribed, such as the Extractive Industries Transparency Initiative, or the right of the Government to disclose the final Concession agreement (including its fiscal terms), including both affirmative payment obligations and concessions from otherwise applicable fiscal obligations.

121. Post-Contract Management

The Commission may in consultation with the Minister responsible for mining issue regulations further clarifying and expanding upon the provisions of subsections (2) and (3) of Section 75 of this Act. The Commission may also issue such regulations as it determines to be necessary or appropriate to ensure that the issuance of licenses for mining and petroleum prospecting, reconnaissance and exploration, where not expressly exempted from the applicability of this Act, are awarded in a competitive manner in compliance with the requirements of this Act and without the grant of a monopoly to any party.

**PART VII – RULES ON DISPOSAL OF STORES, PLANT

- (2) A complainant may (i) request that the Complaints, Appeals and Review Panel decide the complaint if the relevant Entity does not issue a decision within fifteen (15) days of the complaint being filed or (ii) file with the Complaints, Appeals and Review Panel an appeal of a decision of the relevant Entity. - (4) The Complaints, Appeals and Review Panel may not act on a request for decision or an appeal unless it first determines that an initial complaint was properly filed with the Head of the relevant Procuring or Concession Entity and that either (a) the response period provided for in subsection (6)(b) of Section 125 has expired without a decision of the relevant Entity or (b) that such a decision has been rendered.
- (5) The complaint forwarded to the Complaints, Appeals and Review Panel with a request for decision may not raise new claims or evidence not presented in the complaint filed under Section 125. Appeals shall state the facts and law relied upon to establish that the initial decision of the Procuring or Concessions Entity was erroneous and may not raise new claims or issues that were not within the scope of the initial complaint or the decision being appealed.
- (6) Upon receipt of a request to the Complaints, Appeals and Review Panel to decide a complaint when the relevant Procuring or Concessions Entity has failed to respond within the time provided by subsection (6)(b) of Section 125 of this Act or of an appeal, the Commission shall deliver the request or appeal to the Complaints, Appeals and Review Panel, and shall provide the relevant Entity with a copy of the request or appeal.
- (7) Each request for decision or appeal made to the Complaints, Appeals and Review Panel shall be dealt with exclusively by a specific complaint and appeal panel designated for the purpose of that request or appeal from the

members of the Complaints, Appeals and Review Panel as provided in subsection (7) of Section 10 of this Act., and shall be administered in accordance with this Part and any rules of procedure established by regulations. The Secretariat shall provide such assistance to each designated complaint and review panel of the Complaints, Appeals and Review Panel as it may request in the handling of any request for decision or appeal properly before it, including research and investigation of matters of fact relevant to the request.

- (8) No designated complaint and appeal panel of the Complaints, Appeals and Review Panel may issue any decision with respect to a complaint presented pursuant to clause (i) of subsection (2) of Section 126 or an appeal presented pursuant to clause (ii) of subsection (2) of Section 126 unless it has held a hearing at which the complainant, representatives of the relevant Entity, Concession Bid Evaluation Panel or Inter-Ministerial Concessions Committee, as the case may be, and representatives of other interested bidders have been given the opportunity to appear and present testimony. Each designated complaint and appeal panel of the Complaints, Appeals and Review Panel must give not less than seven (7) days written notice of the hearing to the parties and to any interested bidders who have timely notified the Commission pursuant to subsection (9) of this Section of their desire to be heard. In addition, all such persons (and any other interested persons) must have at least seven (7) days after the completion of such hearing to provide additional evidence or legal support in writing. All oral presentations and additional written evidence shall be given under oath as to any assertions of fact contained therein.
- (9) An interested bidder who wishes to appear at a hearing must file a notice of appearance with the Complaints, Appeals and Review Panel within seven (7) days of the publication by the Commission of the notice required by Section 128(1) of this Act of the request for decision or appeal.

127. Decisions on Complaints and Appeals

- (1) Upon a complaint and/or appeal the Complaints, Appeals and Review Panel shall under normal circumstances render its decision within forty-five (45) days after the request for review or appeal is received. That period may be extended by fifteen (15) days. If the panel does not issue a decision within the prescribed or agreed period, the complainant or appellant may proceed directly to a court of competent jurisdiction as contemplated by subsection (7) of this section 127.
- (2) Any decision by a designated complaint and appeal panel of the Complaints, Appeals and Review Panel with respect to a request for decision or an appeal presented pursuant to Section 126 shall be in writing and shall set forth:

 - (d) To the extent the complaint or appeal is upheld, the corrective measures to be taken.
- (3) Decisions of a designated complaint and appeal panel may be circulated among the Complaints, Appeals and Review Panel members for advice and comment before writing and release. If a decision of a complaint and appeal panel is not unanimous, the dissenting member must issue an opinion setting forth the grounds for his or her dissent.
- (4) If a decision of a designated complaint and appeal panel of the Complaints, Appeals and Review Panel upholds the complainant's contention that a violation of the Act or its regulations has occurred, the complaint and appeal panel may direct such of the following remedies as it determines to be appropriate in accordance with such decision:
- (a) Prohibit the relevant Entity, Concession Bid Evaluation Panel or Inter-Ministerial Concessions Committee from acting in an unauthorized manner or from following incorrect procedures or direct the relevant Entity, Concession Bid Evaluation Panel or the Inter-Ministerial Concessions Committee to follow the required procedures;
 - (b) Where necessary to provide relief from the effect of the violation, require the relevant Entity, Concession Bid Evaluation Panel or Inter-Ministerial Concession Committee to resume the procurement or Concession process from a point prior in the process to the point where the violation occurred;
 - (c) If deemed necessary to ensure compliance with the Act, require that the procurement or Concession proceedings be cancelled (the decision on whether and when to restart the procurement or Concession proceedings being the responsibility of the relevant Procuring or Concession Entity); and
 - (d) If there have been violations of Section 131 or 132 of this Act, recommend action by the Commission under Section 44 of this Act and/or prosecution by the Ministry of Justice.

Notwithstanding this subsection (4), a designated complaint and appeal panel of the Complaints, Review and Appeals Panel does not have the authority to issue a decision that directs the relevant Entity, Concession Bid Evaluation Panel or Inter-Ministerial Concessions Committee to award a contract or concession to any particular person.

- (5) Where a procurement contract or concession has already been entered into in accordance with this Act and is not at the time still subject to a suspension provided in Section 129, if a decision of a designated complaint and appeal panel of the Complaints, Appeals and Review Panel upholds the complainant's contention that a violation of the Act or its regulations has occurred, a complaint and appeal panel may, after a hearing, direct any or all of the remedies set forth in clauses (a) and (d) of subsection (4) of this Section.
- (6) In addition, where a procurement or concession contract has been entered into and is not subject to a suspension provided in Section 129 and if the designated complaint and appeal panel of the Complaints, Appeals and Review Panel has found that there has been fraud in obtaining a procurement contract subject to this Act or a Concession, the Commission (in the case of a procurement contract) or the Cabinet (in the case of a Concession) may, after a hearing on disputed facts by a designated complaint and appeal panel of the Complaints, Appeals and Review Panel terminate the contract or Concession and bring an action in the name of the Government to recover any payments made thereunder. Any such termination and action is in addition to damages or any other remedies available under the terms of the procurement or concession contract, this Act or other statutes, and a decision to refrain from exercise of the termination remedy is not a defense against any other remedy that may be sought.
- (7) The decisions of a designated complaint and appeal panel of the Complaints, Appeals and Review Panel are final and binding upon all parties, subject only to review by a court of competent jurisdiction. Any party to the matter decided may bring an action under the Administrative Procedure Act to enforce the decision and this right includes the right of a prevailing party to bring an action against the losing party to enforce the decision notwithstanding any definitions in the Administrative Procedure Act.

- iii. Sets forth a claim, supported by sworn assertions as to matters of fact, that on its face would demonstrate that the complainant has a substantial chance of obtaining relief under this Act when the matter is considered on the merits, and

- (b) the grant of the suspension will not cause disproportionate harm to the Government or other bidders.

- (2) The designated complaint and appeal panel of the Complaints, Appeals and Review Panel may, on motion by the complainant and after giving the relevant Entity an opportunity to be heard, suspend the proceedings for such additional period as is required for the resolution of the complaint in accordance with Sections 125 through 128 of this Act.
