REPUBLIC OF LIBERIA

THE PRESIDENT

JNB/MOS/RL/259/2024

March 12, 2024

Honorable J. Fonati Kofa Speaker House of Representatives National Legislature Capitol Hill Monrovia, Liberia.

Honorable Speaker and Members of the Legislature:

Submission of the draft **National Budget for Fiscal Year 2024** to the National Legislature

Honorable Speaker and Members of the Legislature:

It is my distinguished honor to submit to the 55th National Legislature of the Republic of Liberia, the draft National Budget for the Fiscal Year 2024. This submission, beyond the statutorily required period, is the result of the return by the Honorable House of Representatives to the Executive of the draft budget earlier submitted by my predecessor. I extend my profound thanks and appreciation to you for such pragmatic action, which I view as an early positive sign of cooperation and coordination between the Legislature and the Executive in pursuance of our shared national development objectives. This has offered us the opportunity to prioritize policy-driven programs as articulated in the ARREST Agenda and our 100-Day Deliverables.

Resource Envelope

The proposed resource envelope for the FY2024 budget is projected at **US\$692.4 million**, of which Tax Revenue accounts for **US\$540.2 million** or 78 percent and Nontax Revenue of **US\$109.8 million** or 16 percent. Externally sourced revenue is projected at **US\$42.4 million** or 6 percent of the revenue estimate Compared to the FY2023 budget outturn of US\$793.3 million, the FY2024 budget represents a decrease of 12.7 percent.

This fall is mainly attributed to a decrease of US\$144.6 million in external financing. In order to manage the debt portfolio which crowds out spending on critical priorities, our Government has decided to exercise fiscal restraint and discipline when it comes to acquiring new debts. This decrease will be offset by increases in Tax Revenue of US\$16.7 million or 3% and Non-Tax Revenue of US\$27.0 million or 33%.

Medium-Term Horizon

The medium-term projections for domestic revenue for the outer years 2025 and 2026 are set at US\$675.5 million and US\$712.1 million, respectively. Of these amounts, 2025 tax revenues is estimated at US\$560.3 million (83 percent) and nontax US\$115.2 million (17 percent). In 2026, tax revenue will rise to US\$591.2 (83 percent) and nontax US\$121.0 million (17 percent).

Proposed Expenditure Priorities

The proposed expenditure for FY2024 is shared between recurrent expenditure of **\$640.5** million or 93 percent and public sector investment projects (PSIP) is **US\$51.9** million or 7 percent. Among the key recurrent expenditures are debt services to commercial banks arising from constructure projects and to multilateral institutions in order to unlock support to medium-term development priorities. Other recurrent expenditures are compensation of employees, operational goods and services for government entities and subsidies, grants and transfers to governmental and non-governmental institutions in the health and education and social service sectors.

Recurrent Expenditure: The proposed recurrent expenditure of **US\$640.5 million** has been allocated towards major expenditure categories including Debt Service (domestic and foreign) US\$129 million, Compensation of Employees US\$297 million, Use of Goods and Services US\$90.2 million (including US\$4.7 million for drugs and medical consumables), acquisition of Non-financial Assets US\$3 million, Social Benefits (pensions, retirement benefits, etc.) US\$17.9 million, Subsidies US1.7 million and Grants US\$101.7 million.

Public Sector Investment Projects (PSIP)

Honorable Speaker and Members of the Legislature:

The National Budget is the framework for planning and executing short, medium and long-term public sector investments that will reduce the infrastructure and other capacity gaps that constrains growth and development. however, given the limited time to design and formulate projects through the regular sector working group for inclusion in the budget, ongoing public sector investment projects that are aligned with the ARREST Agenda have been prioritized such that allocations for those projects are ring-fenced to ensure their completion.

The proposed allocation for Public Sector Investment Projects is **US\$51.9 million.** Some critical programs that have been prioritized within the PSIP envelope include the following allocations: US\$26.3 million to **Road Fund projects**; US\$13.9 million to **100-day Deliverables**; US\$3.6 million to **District Development Projects**; US\$1.8 million to **Youth ICT Capacity Building**; and US\$1.5 million for **Asset Recovery Task Force.**

Macroeconomic Context

Honorable Speaker and Members of the Legislature:

Despite improved macroeconomic management coordination between both fiscal and monetary authorities, the Liberian Dollar depreciated by 18.6 percent through 2023. The declining value of the Liberian Dollar and increased global food and fuel prices drove up the prices of imported goods. However, real GDP growth is predicted to accelerate from an estimated 4.6 percent in 2023 to 5.3 percent in 2024. The growth is expected to be driven by positive developments in the mining sector that will boost investment, production, and domestic consumption. Growth is also predicted to be propelled in 2024 by increased activities in the agriculture and services sectors.

Some major risks to the government's stabilization measures include deterioration of the terms of trade on the main exports, especially gold and rubber, and protracted conflicts in the Middle East and Ukraine. Also, the high costs of food and fuel pose a serious burden on the public and by extension exerts additional pressure on public expenditures as Government would be constrained to adopt mitigating measures such as import subsidies and tax exemption.

Another major challenge to the country's growth is its infrastructure gaps. Only about 7 percent of roads are paved with about 27 percent of the population having access to electricity. Moreover, private sector development is hindered notably by limited access to financial services. The country is also highly susceptible to the consequences of climate change, which may pose a risk to planned public expenditures through increasing calls for interventions in climate related disaster response. Notwithstanding the foregoing challenges, the government remains focused on policy interventions aimed at mitigating the situation and maintaining macroeconomic stability.

Debt & Debt Servicing

Total public **Debt Stock** as at end-December 2023 stood at **US\$2,337.26 million**. Of the total debt stock, domestic debt stock accounts for **US\$1,022 million**, which represents 43.73 percent of the total debt stock, and external debt stock accounts for **US\$1,315.26 million**, representing 56.27 percent of the total debt stock. Debt stock accounts for 53.79 **percent of nominal GDP**. Of the total debt service, **Domestic Debt** service amounts to **US\$69.2 million** accounting for 54 percent and External **Debt** service payment amounts to **US\$59.8** million or 47 percent.

Although servicing the public debt stock is the topmost priority when making decisions about allocating resources, the constrained fiscal space has limited our ability to service the debt in the proposed FY2024 Budget at the required level. With efforts underway for measures to enhance domestic resource mobilization and curtail wasteful expenditure, it is my fervent hope that, subsequently, yields from these exercises combined with other policy changes will help put debt servicing back on schedule.

Conclusion

Honorable Speaker and Members of the Legislature:

The successful execution of this budget in a credible fashion will require that we take certain deliberate actions collectively as a government. Firstly, fiscal discipline must be our guiding principle for budget execution. The Amended and Restated PFM Act, the PFM Regulations, and the Fiscal Rules must be adhered to by all at all times.

Secondly, heads of spending entities must exercise their fiduciary responsibility to ensure the highest degree of fiscal probity and accountability as the Budget Holders. We must be reminded about the requirements of the PFM Law that spending entities make periodic reports to facilitate routine audits. Adherence to these requirements has been the missing link in our budget execution and must be restored. I urge heads of spending entities to lend their fullest cooperation as we endeavor to depart from **business as usual** to pursue a path of transparency and accountability in public financial management.

Honorable Speaker and Members of the Legislature:

We have already missed nearly the entire first quarter of the fiscal year of full budget execution. The delayed commencement of fully executing the budget and the approaching rainy season have traditionally adversely affected the timing and implementation of programs and projects. It is against this background that I implore your indulgence to expeditiously enact the draft FY2024 Budget into law for its full execution.

Kind regards.

Sincerely Yours,

Joseph Nyuma Boakai, Sr.

1.3 Preface

PREFACE TO THE BUDGET

The Liberian economy is forecasted to increase to 5.3 percent in 2024 and 6.4 percent in 2025 and marginally increase on average by 0.3 percentage points over the medium term beyond 2025, underpinned by growth in Agriculture & Fisheries, Mining & Panning, and Manufacturing as the country benefits from investments in mining and structural reforms in sectors such as energy, trade, transportation, and financial services. Growth estimates for 2023 experienced a decline of 0.2 percentage points from a growth rate of 4.8 percent recorded in 2022, on account of declines in agriculture & fisheries and mining & panning sub-sectors.

Despite increased gold exports, the country's current account deficit increased to 24.4% of GDP in 2023. The trade deficit worsened to 18.4% of GDP, driven by import growth outpacing export growth. Financing comes from net IMF credit and loans.

The total estimated resource envelope for the FY2024 National Budget is U\$\$738.86 million. This implies a 4 percent decline when compared to the FY2023 Approved National Budget of U\$\$771.70 million. This decline is mainly attributed to a 61.4 percent projected decline in external resources. The estimated resource envelope is forecasted from domestic and external sources. Domestic revenue is projected at U\$\$696.43 million, of which tax revenue accounts for U\$\$540.53 million and non-tax revenue accounts for U\$\$155.90 million; while external resources are projected at U\$\$42.43 million. Major constituents of tax revenue are taxes on income and profit, U\$\$244.95 million constituting 45.3 percent of total tax revenue; taxes on international trade, U\$\$197.69 million accounting for 36.6 percent of total tax revenue; goods and services tax at U\$\$83.53 million accounting for 15.5 percent of total tax revenue, while real property and other taxes account for U\$\$14.36 million, representing 2.7 percent. On the other hand, non-tax revenue is estimated at U\$\$155.90 million, of which property income tax is U\$\$127.45 million representing 81.8 percent as the major driver of the non-tax revenue.

There is no change in the tax policy for FY2024 except those tax-policy changes reflected in the FY2021 National Budget that proposed amendments to select provisions of the Revenue Code. The amendments largely entail a simplification of the penalty regime, enhancement of the language on records to be kept, increase in the GST rate to 11 percent, imposition of airport departure tax at US\$25 per departing passenger, and standardization of the petroleum excise regulation in the main text of the Liberia Revenue Code (LRC) with the Agreement Sharing.

The total estimated expenditure for the FY2024 National Budget is **US\$738.86 million**, which is consistent with the total revenue forecast for the period. This signifies a decrease of **0.4 percent** when compared to the FY2023 approved expenditure of **US\$771.70 million**. The total expenditure envelope is divided into two main categories: recurrent expenditure which is **US\$643.72 million** accounts for **87.1 percent** of total expenditure while spending on Public Sector Investment Programs (PSIP) is **US\$95.14 million** accounting for **12.9 percent** of total expenditure.

Following is an overview of allocations to eleven sectors highlighting major expenditure targets:

a. Public Administration Sector: The Public Administration sector is allocated U\$\$256.73 million which is 34.7 percent of the total National Budget. Key drivers of this sector's allocation are servicing domestic and foreign debts, renovating public buildings, honoring other legal obligations, etc.

1.3 Preface

- b. Municipal Government Sector: This sector has a total allocation of U\$\$35.80 million or 4.8 percent of the overall budget. Key components include SDF, CDF, Cheesemanburg Landfill, and Urban Sanitation Project, as well as the transformation of solid waste management.
- c. Transparency and Accountability Sector: The allocation for the Transparency and Accountability Sector is US\$22.89 million, constituting 3.1 percent of the total envelope. A major component of the sector's budget is the conduct of by-elections.
- d. Security and Rule of Law Sector: The allocation for the Security and Rule of Law Sector is US\$108.01 million, representing 14.6 percent of total expenditure. Key expenditure components under this sector include food and medical supplies for prisoners, fuel and lubricants, drugs and medical supplies for barracks, intelligence services, and security operations.
- e. Health Sector: The Health Sector's allocation is US\$80.10 million, representing 10.8 percent. Food, fuel, lubricants, drugs, medical consumables, vaccines and vaccination supplies, Regional Diagnostic Center, and transfers to public and private health facilities are major objects of recurrent expenditure.
- f. Social Development Services Sector: The amount of US\$26.84 million allocated for this sector reflects 3.6 percent of the total expenditure. The key expenditures prioritized are the fight against drug abuse and Sexual and Gender-Based Violence (SGBV), support for the At-Risk Youth Rehabilitation program, etc.
- g. Education Sector: The Education Sector's total allocation is U\$\$111.33 million, representing 15.1 percent of the total expenditure. Major expenditure components in this sector include the repair and maintenance of public schools, Government transfers to universities, and the implementation of free and compulsory primary education, as well as tuition-free policy for tertiary education, with the aspiration of eliminating registration fees and all forms of the financial burden imposed on parents in the long-term, payments for examination fees, renovation of facilities of public universities, scholarships payment for local and international studies, and support to engineering college.
- h. Energy and Environment Sector: Allocation in the Energy and Environment Sector is US\$26.32 million, representing 3.6 percent of the total expenditure. A major expenditure in this sector is for ensuring stable electricity during the dry season through the CLSG project under the West Africa Power Pool program.
- i. Agriculture Sector: Allocation for this sector is US\$8.83 million, representing 1.2 percent of the total expenditure. Key expenditures include capital spending, repairs, and maintenance of warehouses in anticipation of increased harvests.
- j. Infrastructure and Basic Services Sector: The total allocation in the infrastructure sector is US\$54.25 million, representing 7.3 percent of the total expenditure. The biggest drivers in this sector are the National Road Fund, the South Eastern Corridor Roads Asset Management Project (SECRAMP), Pliability Road Intervention, and Meteorological Equipment.
- k. Industry and Commerce Sector: The amount of US\$8.28 million constitutes 1.1 percent of total expenditure. Key expenditure components include the operationalization of the Liberia Standard Laboratory Authority, and Vulnerable Small Business Support Program.

Total debt service, subscription, and other payables for FY2024 were originally projected at US\$217.28 million, representing a 117.7 percent increase compared to the FY2023 forecast of US\$99.81 million. However, given the resource constraints, US\$86.20 million was finally allocated to service the government's obligations, representing an increase of 13.64 percent compared to the FY2023 forecast of US\$99.81 million.

The overall debt stock as of December 2023 stood at **US\$2.4 billion**, of which domestic debt is **US\$1.0 billion (42.6 percent)** and external debt is **US\$1.4 billion (57.4 percent)**.

1.3 Preface

Of the US\$86.20 million allocated, core debt service is projected at US\$77.39 million while subscription and other payables account for US\$ 8.81 million. Subscription and other payables were reduced from US\$14.23 million in FY2023 to US\$8.81 million in FY 2024. The US\$77.39 million projection on core debt comprises domestic liabilities of US\$25.95 million and external liabilities of US\$51.44 million.

Budget Reforms and Transparency Initiatives

The Government of Liberia continues to make gradual progress towards enhancing fiscal transparency across government and public participation in the national budget process. The first pre-budget consultations were piloted in five counties (Montserrado, Grand Bassa, Gbapolu, Nimba, Bomi) targeting more than 300 civil society representatives and citizens, including, including vulnerable and marginalized groups, such as disadvantaged groups, Persons with Disabilities (PWD), women.

In preparation for the presentation of the FY2025 National Budget in the MTEF format, MFDP will work along with the budget and planning technicians of spending entities to:

- a. Review and update the MTEF Planning and Budgeting manual;
- b. Develop their capacities on the concepts, principles, design, tools, templates, and processes of MTEF;
- c. Establish expenditure baselines for all spending entities.

The MTEF Coordination Team will also work with the Budget Management Committees within the spending entities to derive the two outer-year projections for their respective budgets. The MTEF program will integrate Gender Responsive Budgeting, Climate Change Adaptation, and Performance Management and Compliance Systems (PMCS).

This legislation aimed to combine the existing Ministry of Finance and the Ministry of Planning and Economic Affairs into a single, more efficient entity. The MFDP's primary mandate is to foster economic development, promote judicious financial resource management, and contribute to the sustainable growth and developmental objectives of the nation.

Achievements (FY2023):

No information available for spending entity.

Government of Liberia Funded Projects

0840 National and County Plan Development

Objectives (FY2024):

Work in close collaboration with LRA and major spending entities to improve tax administration for revenue-generation increases of at least 10% per annum; improve fiscal policy stance to bring it in line with economic fundaments, and build fiscal headroom by bringing expenditure closer to parity with revenue using means that are sustainable and compliant with PFM and associated laws; In close collaboration with CBL and relevant economic sector actors, formulate evidence-based macroeconomic policies and strategies to accelerate economic growth towards the trajectory anticipated in the Pro-Poor Agenda; Design systems, tools to implement new policies (including piloting implementation of GRB Policy) programmes and activities, that allow for effective and efficient service delivery to all PFM stakeholders, development partners and the general public; Strengthen all MFDP departments through sustained staff re-profiling and professional development, optimum and austere utilization of financial resources within the budgetary framework, and proper logistical support and services while championing the implementation of the 2019 to 2023 strategic plan.

204 NATIONAL SECURITY AGENCY

The purpose of the National Security Agency (NSA) is to collect, collate, analyze, and disseminate foreign and domestic intelligence to ensure the peace and stability of the Republic of Liberia. The powers of the NSA are enshrined in the 1974 Act establishing the NSA as the premier intelligence organization in Liberia, furthered enhanced through the National Security and Intelligence Act of 2011 (NSIA 2011). The NSIA 2011 expanded the mandate beyond the 1974 Act to ensure the NSA access, analyze, and neutralize threats from non-state actors and criminals, emanating from terrorism, organized crimes, drug and human trafficking to name few. The NSA has resumed its pre-war responsibility of clearing of all intelligence emanating from state security institutions that are members of the joint security under the Minister of Justice and the National Security Council under the direction of the President of Liberia respectively.

Achievements (FY2023):

307 NATIONAL COMMISSION ON HIGHER EDUCATION

Mission:

The National Commission on Higher Education (NCHE) was established by an act of the National Legislature in its Third Session in July 1989. It is mandated to provide policy guidelines for establishing higher learning institutions in Liberia. The NCHE coordinates, monitors, evaluates, and accredits all higher institutions of learning in the country. The emergence of post-secondary educational institutions in Liberia without reference to the Government to monitor, evaluate and approve programs of study at these higher institutions of learning, recognizing the need to provide equal access to educational opportunities for the improvement of the educational system amongst others, prompted the National Legislature in its Third Session in July 1989 to enact into law the National Commission on Higher Education (NCHE) as an autonomous agency of Government. The Commission was therefore mandated, among others, to:l. Review existing programs of all Institutions of higher learning with the aim of establishing priority program of study based on national needs; II. Formulate broad policy guidelines for the establishment of institutions of higher education in Liberia and to coordinate and serve as principal liaison between institutions of learning and the government of Liberia; III. Monitor, evaluates, and accredits all institutions of higher education in the country to ensure quality higher education programs.

Achievements (FY2023):

Monitoring and assessments of higher education institutions (HEIs) across Liberia; Harmonization of curricula for early childhood education and primary education; From 38 duly licensed and accredited Higher Education Institutions (HEI) in 2018, to 53 registered in 2021--a growth of about 39% of which 11 are public, 17 are private, and 25 are faith-based. In terms of enrollment, HEIs has increased in the last 10 years—from 28,550 in 2011/12 to 78,355 in 2020/21, of which 52,429 (67 percent) were enrolled in public HEIs; The 1989 Act on Higher Education was revised to conceptualize the context of higher education in Liberia; hence the need to hold a national stakeholder conference that will develop a comprehensive road map for higher education.

Objectives (FY2024):

1. Quality- To ensure quality and relevant higher education opportunities that are accessible to all Liberians, which lead to an improved livelihood and sustainable development? 2. Access- Concentrate on the provision of advanced higher education opportunities to the rural counties. 3. Relevance- Concentration is on relevant areas of studies that are in line with the development agenda and the workforce requirement.

Annex 1: Public Debt

Annex 2: State Owned Enterprises

Introduction

The Amended and Restated PFM Act, Subsection 18(1)(f), requires an annex summarizing the operations of state-owned enterprises (SOEs) for the previous fiscal period and the financial plans for the next budget period, along with the strategic plans of the SOEs to be included in the National Budget (NB)

state parastatals in an effort to expand the coverage of the state enterprise sector to thirty-two (32) entities. However, the compliance of fourteen (14) of the additional sixteen for FY2024 represents a consolidated estimate of eighteen (18) SOEs for which the BSE obtained some data. In 2022, the BSE engaged an additional sixteen (16) SOEs and The SOE Annex is intended to inform the decision of policymakers as they allocate scarce public resources during the preparation of the National Budget of Liberia. This annex (16) entities engaged has not been forthcoming to date.

and the estimates for FY2024, with forecasts for FY2025 and FY2026. The annex covers the aggregate projections of the SOE Portfolio, which include discussions of the The FY2024 SOE Annex provides information comparing the actualized financial performances of SOEs for FY2022, the approved budgets and estimated outturns for FY2023, forecast method used, revenue estimates, expenditure estimates, estimates of subsidies and other transfers from the GoL, and SOEs' planned support to the NB. The annex also includes the budget estimates of individual SOEs and state parastatals.

SOE Consolidated Budget Estimate for FY2024

Estimation

Four (4) of the eighteen (18) entities covered in this annex failed to submit their financial plans for the 2024 fiscal year in violation of the requirements of Subsections 58(1) and 59(3) of the Amended and Restated PFM Act of 2019. Therefore, the estimates provided for those specific entities in the SOE FY2024 consolidated budget were generated using the historical trends and CAGR of the past operational performances of the entities and analysis of sector-specific and entity-specific factors. For a more realistic estimate, the available focal persons from the various entities were contacted and discussions held were taken into consideration. The table below presents the FY2024 consolidated estimate of the current portfolio of SOEs.

PROJECT OVERVIEW/DESCRIPTION

Digitizing revenue transaction systems is crucial in achieving efficiency in revenue generation across government and it is consistent with best practice. The Liberia Revenue Authority has undertaken a number of steps to transition to digital transaction including the introduction to ASYCUNDA for processing and clearing goods, the e-Tax Clarence, TIN request and verification and property registration among others. Notwithstanding these efforts, there are still limited infrastructural and technical capacities within the LRA and within stakeholder MACs to sustain the effective use of these systems for efficient customer interaction and revenue collection. There has to be a deliberate and comprehensive effort to develop or improve, pilot or rollout relevant revenue transaction systems within the LRA and stakeholder institutions including private sector clients.

The are several advantages of improving Liberia's revenue transaction systems; among them are the following:

- Automation of services and transactions reduces human interaction and errors in calculation hence an efficiency and accuracy of transactions
- A reduction in medium and long-term overall administrative cost due to limited need for personnel, logistical and infrastructural mobility
- Real time data access and reporting
- Enhanced customer experience
- Ease of tracking and integration with related systems

PROJECT OVERVIEW/DESCRIPTION

In 2012, the government undertook an exercise of developing a national vision which was branded Vision 2030 or Liberia Rising 2030. This national vision is an aspiration that excites all Liberians and has the Government working towards a middle-income status. The pathways towards this aspiration would consist of a series of successive medium term development plan. At least two of those medium-term plans have been implemented, i.e. Agenda for Transformation (2012-2017) and Pro- Poor Agenda for Prosperity & Development (2018-2023). Now is the opportunity to fully develop this last plan which should bear all the elements that would fulfill the aspiration of the national vision. Ushering of the new government on January 22, 2024 finally unlocks the opportunity to begin the crafting of the next five-year development plan and its corresponding County Development Agendas (CDAs) and Public Sector Investment Program (PSIP).

PROJECT OVERVIEW/DESCRIPTION

The Cheesemanburg Landfill and Urban Sanitation (CLUS) project builds on activities initiated under the EMUS Project in continuation of the solid waste collection and disposal as well as the construction of a new sanitary landfill in Cheesemanburg to replace the existing landfill in Whein Town which has a limited lifespan of fewer than two years.

The development objective of the Cheesemanburg Landfill Urban Sanitation (CLUS) project is to provide improved access to solid waste management (SWM) services in Monrovia. The Cheesemanburg Landfill Urban Sanitation (CLUS) project has three (3) main components: Component 1: The construction of the Cheesemanburg Regional Landfill and Partial Closure of the Whein Town Landfill. Component 2: Solid waste collection and disposal in and around the City of Monrovia. Component 3: Institutional Capacity Strengthening and Technical Assistance. The Hygiene and sanitation of Monrovia City and its environs is its ultimate priority for this project.

PROJECT OVERVIEW/DESCRIPTION

Poor garbage collection and disposal is a major problem in Monrovia and its adjoining cities. It continues to be a key source of health hazard and poor sanitary conditions in the city. This exposes families, especially women, children and vulnerable people to terrible illnesses. The City Government continues to face logistical constraints in the collection and disposal of

garbage thereby creating the need for continuous Government support to boost the logistical capacity of the city Government.

This project will be implemented in the following phases:

Garbage collection and disposal

The recruitment of 9000 youths, 10 Supervisors, 50 MCC Community Management Team (CMT), 50 MCC Sanitation Workers and Petty Traders Task Force including 6 Project Staff to be properly vetted to occupy the positions of Project and Field Staff to complement the efforts of MCC staff that are already engaged in the cleaning, collection and disposal of garbage in Monrovia and its environs.

The purchase of solid waste equipment and small tools that are required for waste cleaning, collection and disposal at the primary and secondary levels to be deployed along with personnel in the three regions (southern, northern and central).

In another development, community will be charged with the responsibility to recruit 100 youths in the various community with 50 youths to be shortlisted and vetted by the Management of the Monrovia City Corporation to be trained as enumerators to conduct household survey in the several communities to collect statistical data on the volume of waste that is generated at the household level and by extension the community.

Community cleaning

Roadside brushing along the various high ways including the disposal of waste in the various communities.

Drainage cleaning is also another essential component of the project, which will take into consideration Sonewein, Clara Town, West Point, Doe Community, Freeport and New Kru Town drainages and etc.

PROJECT OVERVIEW/DESCRIPTION

Paynesville City Corporation faces major environmental challenges associated with waste generated and inadequate collection, transportation, treatment and disposal. The city found it difficult to control the volume of waste that was generated because of the increase in urban population, which also affects the environment and poses a public health hazard thread.

The Clean Cities Campaign project is aim to address two key issues faced by the Paynesville City Corporation.

Solid Waste Collection: The volume of waste generated in Paynesville is constantly increasing due to urban migration into the city. The inability to collect waste in a timely fashion has a negative effect on our environment and creates a public health hazard. The Municipality struggles to meet the demands for waste collection due to insufficient vehicles/equipment and significant financial constraints.

Unemployment: The unemployment challenge faced by the City of Paynesville has led to an increase in criminal behavior and the economic crisis faced by many households. Youth loitering on the streets with no destination is an indication of the need to provide jobs in our communities. Through the provision of 300 jobs, will not only remove 300 young people both male and female off the streets; the project will also provide training in waste management and possibly identify individuals for permanent employment.

The City requires access to equipment such as front-end loaders, dump trucks, tricycles and skips, to facilitate daily cleanup activities

Cleaning of streets, gutters and sidewalks will provide jobs opportunity for over 300 unemployed youth both male and female in Paynesville City.

| Mental Health Project | | | | |

PROJECT OVERVIEW/DESCRIPTION

Mental illness and substance abuse disorders are major problems in Liberia. Liberia's over 4 million populations is substantially young and mental illness and addiction disproportionately affect young people. Up to 75% of all mental health disorders start in youth. Even the most serious mental illness (schizophrenia) is a young person's illness with the early 20's being the average age of onset. Mental disorders are the highest cause of long-term disability and dependency. In addition, epilepsy, a neuropsychiatric disorder, is widespread in Liberia.

The consensus based on estimated global prevalence is that 10% of the general population will suffer from common mental health disorders (such as mild to moderate depression, anxiety disorders, and alcohol and substance misuse) and 3% will suffer from severe mental illness, such as chronic depression, schizophrenia, and bipolar disorder. This means that at least 400,000 people in Liberia suffer from mental health, epilepsy, or addiction problems and about 130,000 from a severe form¹ everything being equal.

Substance abuse disorder is on the increase with high number of young people becoming addicted. There are areas in Monrovia and other parts of the country where drugs, such as heroin and cocaine, are inexpensive, and can be easily purchased and used.

This project seeks to construct, furnish and fully equip a proposed Referral Psychiatry Hospital and Rehabilitation Center to address the medical and psychosocial needs of mental health related cases and serve as the major mental health referral center for Liberia. It will also allow for the construction and equipment of 10 mental health centers across 10 counties in the near future.

PROJECT OVERVIEW/DESCRIPTION

Access to quality healthcare services in Liberia is a challenge. This challenge is particularly serious at the subnational level. One of the major factors plaguing the quality of healthcare is poor diagnostic services. This inadequacy of diagnostic capacity in regional medical facilities across Liberia is undermining the ability to respond effectively to healthcare challenges. The available alternatives are extremely expensive and cannot be afforded by the ordinary citizens who are at the bottom of the socioeconomic ladder.

Therefore, the MOH intends to establish regional diagnostic centers across Liberia at major health facilities.

PROJECT OVERVIEW/DESCRIPTION

Sexual and Gender-Based Violence (SGBV) issues in Liberia are on the increase. According to the MOGCSP 2020 Statistical report 635 cases of SGBV were reported ranging from denial of resources, physical assault/domestic violence, rape, and sexual assault. As reported, rape/sodomy constitutes 482 with Montserrado County accounting for 386 rape, 4 sodomy, 42 sexual assault, and 18 domestic violence/physical assaults. In general, the SGBV reports from January to May 2020 recorded 953 cases. Of this, rape recorded the highest incidence affecting 67 girls, mostly babies, between the ages of 0-5 years; rape also recorded

the highest incidence affecting 388 girls between the ages of 13-17 years. While for ages 18 years and above, Physical Assault/Domestic Violence recorded the highest incidence with 42 females being affected between the ages of 18-25 years, and 37 females above 25 years of age affected. Rape was recorded as the second highest incidence affecting 20 women between the ages of 18-25 years, and 12 women being affected for ages above 25 years. With the availability of these statistics, it is observed that adolescent girls are the biggest victims of rape. This report is a call to action. Against this backdrop, this project provides a strategic direction on the implementation of key interventions aimed at curbing incidence of SGBV against vulnerable people in Liberia.

In the wake of the ongoing rollout of the national decentralization of services and programs, the district development projects are key to providing access to funding at the district level for priority interventions. This is expected to help empower the district authorities to buttress central government's efforts in providing needed infrastructure and basic services to the people. The National Legislature will work with their constituents to identify priority areas of intervention in each district.

The Liberia Agency for Community Empowerment will spearhead the management of implementation arrangements of these projects in consultation with the Legislature and support from the local authorities. PROJECT OVERVIEW/DESCRIPTION

The Accelerated Community Development Program (ACDP) is a GOL and UN community development funding mechanism for extremely disadvantaged communities in both rural and urban as well as communities that have huge prospects for spurring economic growth and development. Under this counterpart funding arrangement, projects were identified by the communities with support from the GOL and UNDP. The identified projects include agriculture, roads, electricity, water & sanitation, economic empowerment, healthcare, education, and sports centers. These projects will produce a range of benefits that should improve the lives of the Liberian people especially in rural areas. They have been grouped by region for ease of financing and implementation.

For oversight and supervision, a Joint Coordination Team (JCT) headed by MFDP and MOS (President Delivery Unit) including LACE, MICAT, MOE, MOH, MOA, and MPW has been established. Additionally, a project team has been recruited and the project is ongoing with funding from UNDP and the GOL.

ROJECT OVERVIEW/DESCRIPTION

To assist Liberia in rebuilding its primary and secondary education sectors in Literacy, Math and Science, Peace Corps Volunteers have begun teaching in 4 counties upon return after COVID-19, and will eventually teach in 15 counties across Liberia. Volunteers engage in capacity building and resource development through such activities as administration mentoring and support; counterpart teacher training; library, science lab, and computer lab development; and career counseling for students. The purpose of the project is to assist Liberia in building its next generation of leaders through teaching interventions, particularly focused on helping students gain access to personal, professional, and academic opportunities. This has been sponsored by the USAID.

Through classroom teaching and strengthening the capacity of teachers, the Peace Corps provides support through its programming. Volunteers are placed at government primary, junior and senior secondary-level schools where they have an opportunity to make a positive impact on the lives of Liberian youth, by providing them with educational instruction and opportunities for extracurricular activities. Volunteers collaborate with principals, teachers, and parent groups to improve school management, introduce innovative teaching techniques, facilitate the use of school libraries, encourage student organizations, promote career opportunities, and participate in summer academic programs.

Peace Corps Response Volunteers focus on education, but instead of being student-focused like the two-year Volunteers, they are teacher-focused. Response volunteers help prepare future teachers who will be placed in rural areas.

In addition to the Peace Corps initiative, the ECOWAS has also provided volunteers teachers who have also offered similar technical support to the objectives of the Peace Corps Program. The difference is that the GOL through the Ministry of Education is responsible to undertake payments of stipends and housing for these volunteers. This project seeks to underwrite the costs for housing over an agreed period.

| Agency (EPA) | Start Date: 2024 | End Date: 2024 |
| Project Title: Monrovia | | |
| Metropolitan Climate Resilience | | |

PROJECT OVERVIEW/DESCRIPTION

Liberia's capital city, Monrovia, is extremely vulnerable to the climate change impacts of sea-level rise (SLR) and the increasing frequency of high-intensity storms, both of which contribute to coastal erosion and shoreline retreat. SLR is a significant contributor to accelerated coastal erosion, and along with the increasing intensity of offshore storms and waves, exacerbates coastal erosion, the impacts of which result in significant damage to buildings and infrastructure in Monrovia's coastal zone. Additionally, SLR is threatening the sustainability of ecosystem services provided by mangroves in the Mesurado Wetland 2 at the center of the Monrovia Metropolitan Area (MMA), which is further exacerbated by urban encroachment into, and over-exploitation of the mangroves. These changes negatively impact the habitat for economically important fish species. The loss of these nursery areas will have a considerable impact on the fishery-based livelihoods of approximately 55,000 Monrovians, 46% of whom are women.

The proposed project will increase local adaptive capacity by strengthening gender and climate-sensitive livelihoods and protecting mangroves in the Mesurado Wetland within Monrovia. Specifically, adaptive capacity

in Monrovia will be increased by: i) safeguarding ecosystem services provided by mangroves and increasing the resilience of these ecosystems to climate change, through community co-management agreements between government and communities; ii) improving community knowledge on climate change impacts and adaptation practices; and iii) strengthening climate-sensitive livelihoods and supporting the uptake of climate-resilient livelihoods.

While the Green Climate Fund (GCF) and the United nations Development Program (UNDP) are providing

external financing to this project, the GoL has a co-financing obligation.

The Government of Liberia has received financing from the Abu Dhabi Fund for Development (ADFD) toward the cost of the River Gee Hydropower Project with counterpart funding obligations. The project is aimed at constructing a mini-hydropower plant and associated 33KV substation in River Gee County. The project will have a direct positive impact (transformative) on living conditions and economic productivity in the region. It will also help to reduce poverty and greenhouse gas (GHG) emissions. The project will bring multiple benefits to the region and local communities.

PROJECT OVERVIEW/DESCRIPTION

The CLSG is ADF-funded Electricity Interconnection Project for the construction of a 1,357-km-long double circuit high voltage (225KV) line to connect the national networks of four countries namely Cote D'Ivoire, Liberia, Sierra Leone and Guinea. The GoL has a counterpart funding obligation to this project.

The project is part of the West Africa Power Pool (WAPP) Master Plan of priority projects for the Mano River Union countries. It is estimated at an overall cost of UA 331.51 of which UA 128.15 million constituting 38.66% of total cost was provided by the Bank Group (ADF, FSF and NTF).

The project will help establish a dynamic electric power market supply for participating countries which have a comparative advantage in importing power rather than producing it at high cost using national systems. The project covers mainly the construction of high voltage interconnection networks linking Cote D'Ivoire, Liberia, Sierra Leone and Guinea. Other activities related to the construction of infrastructure are also envisaged, including the electrification of localities situated along the power lines, capacity building for WAPP and countries, conduct of studies and the feasibility of hydro-electric power stations to strengthen energy trade and project management. The project implementation will help complete WAPP interconnection network and enhance power supply security by 290 MW. Liberia has already signed the Power Purchase Agreement and the Transmission Service Agreement which will increase Liberia's aggregate power supply by 27 MW.

PROJECT OVERVIEW/DESCRIPTION

The project addresses important challenges to developing agro-food value chains in Liberia. These include: (i) weak capacity of support institutions for delivery of agribusiness services; (ii) poor organization of smallholder farmers; (ii) low agriculture productivity due to limited access to improved technologies, modern inputs, and advisory services; (iii) weak access to markets due to inadequate post-harvest, transport, and marketing infrastructure; and (iv) limited private sector investment in production, processing capacity and value-added activities.

To address these challenges, the project will contribute to creating long-term economic opportunities for value chain actors by applying a three-fold approach: (i) strengthen critical institutions overseeing the development of the sector; (ii) intervene at various level of the supply chain via capacity building and investment subprojects focused on improving agriculture productivity and resilience of the food system to climate change, thus enhancing market access; and (iii) improvement of rural access and agricultural marketing through the upgrading of roads, construction of short-span critical cross- drainage structures, and improvement of agro-logistics centers.

The Project is expected to operate in 10 out of the 15 Counties of Liberia: (i) *Group 1:* covering Bong, Lofa, Nimba, Grand Bassa, Bomi, Grand Cape Mount, Grand Gedeh and Maryland with comparative advantage for the production of cassava; (ii) *Group 2:* covering the Counties of Montserrado, Nimba, Bong, Margibi, Bomi, Sinoe and Maryland for rubber production (iii) *Group 3:* covering the Regions of Grand Cape Mount, Bomi, Montserrado, Bong and Margibi for poultry/piggery production. All the counties will participate in the home gardening activities.

PROJECT OVERVIEW/DESCRIPTION

The Ministry of Public Works has since its establishment been charged with the responsibility of planning and overseeing the connectivity of the country through the development of roads along with its support infrastructure. Liberia is hugely challenged with connecting the entire country to the existing road network and as such many areas and a huge portion of the population remain vulnerable with little or no access to basic social services. Moreover, Liberia has been faced with numerous challenges in addressing situations with bad roads that render such roads access challenging and sometimes to the extent of inaccessibility due to the tropical climate influences or engineering structural failures associated with faulty engineering designs and construction of roads. Such situations show up as emergencies due to institutional incapacities to timely respond or provide solutions to reported defaults and as such result in a long unreasonable period of access challenge and further pose constraints associated with economic hardship and lack of access to basic social services.

The Ministry of Public Works in its scope of duties has conducted a series of assessments on existing and proposed roads and has designed a master plan to improve the road network considering all classifications of roads. The ministry intends to implement such a plan in collaboration with the National Road Fund (NRF) whose function is to provide the required funding based on its Annual Road Maintenance Expenditure Framework considering feasibility studies, designs, rehabilitation, construction, and maintenance of various roads based on developmental and socio-economic demands. The implementation of such plans includes planning, designs, and construction/rehabilitation of related road structures including bridges, culverts, sidewalks, roadside drainages, embankments, pavements, carriageway improvements, etc. Such planning entails the engagement of requisite consultants for design and supervision, training of requisite human resources in road planning, design, supervision, rehabilitation/construction/maintenance contracting, and enhancing the ministry's capacity to adequately administer all of the mentioned road-related development activities.

PROJECT OVERVIEW/DESCRIPTION

The Government of Liberia (GoL) in its partnership with several development partners in the road sector has made commitments through Counterpart Funding (CPF) arrangements to contribute to specific components of specific road rehabilitation projects which are hugely sponsored by Donors through grants and loans. Most of these roads are Primary Roads connecting Monrovia, the Capital City of Liberia, to the 15 Counties' Capital Cities and cross borders road connectivity. As part of the financing arrangements, the GOL is to provide an agreed amount of financing to co-fund specific aspects of the road project under construction. The GOL has defaulted in meeting its counterpart funding obligations for several of such projects, some of which have influenced both cost and time overruns and delay in implementation. For some of these projects, the GOL might forfeit access to funds committed by some of the donors.

The South Eastern Corridor Road Asset Management Program (SECRAMP) which has commenced to support Liberia's efforts to enhance road connectivity for residents living along selected sections of the Ganta-to-Zwedru Road Corridor, and to improve institutional capacity to manage the road sector has commenced and has been ongoing with portions of GOL Commitment already made. In efforts to effectively and efficiently keep the road works ongoing to ensure completion, the GOL needs to guarantee its CPF commitment to the project as required. The GOL's commitment is intended to pay all RAP liabilities and contribute to the Road rehabilitation works as required.

Given the prevailing situation, the GOL with funding allocations from the Ministry of Finance and Development Planning intends to make good its financial commitment to such projects to enable the expansion of the Primary Road network with all-weather roads as anticipated.

PROJECT OVERVIEW/DESCRIPTION

Liberia has faced enormous challenges through the decades with road accessibility due to a number of factors, one of which is attributed to the tropical climate of West Africa. During the rainy season, roads without pavement surfaces become inaccessible due to the adverse effects of water on road structures. This intervention intends to ensure that critical spots or deteriorated sections on Primary Road Sections across Liberia remain pliable throughout the year irrespective of the severity of the rainfall. Rehabilitation efforts to restore and ensure accessibility in the first 100 days of the new administration will be embarked on with expectations of routine and periodic maintenance after the intended 100 days. Subsequently, upgrades to all weather roads for all Primary Roads will be realized once funding commitments are assured through revenue generation and Donor contributions.

PROJECT OVERVIEW/DESCRIPTION

The Liberia Airport Authority has faced numerous challenges overtime to provide safe and efficient air traffic services in accordance to the International Civil Aviation Organization (ICAO) and the Liberia Civil Aviation Authority. While there have been significant investments to improving some of the challenges, there are yet huge challenges including the usage of an outdated and ill functioning meteorological services data equipment at the Roberts International Airport (RIA). This poses inadequacy in the determination and reporting of factual and actual weather information intended to inform landing and taking off aircrafts. This situation is rated non-compliant to LCAA and the ICAO standards and penalties as harsh as closure of the RIA could be levied on the LAA.

The LAA intends to install an up-to-date weather station at the air drone to enable factual and actual weather reports to aircrafts landing and taking off at the RIA. The installation shall promote air traffic management and safety at the RIA.

PROJECT OVERVIEW/DESCRIPTION

The Monrovia sewerage scheme was constructed in two major stages. The first was implemented in 1950 and in the late 60s. The collection network consists of a gravity system that covers 25% of the land area of the city from the Duala area on Bushrod Island up to the German Embassy in Congo Town. Four large SSLS (capacity 160-590 m3/h) are located at Matadi, BTC, Mesurado and Sayon Town with five small SSLS (20-50m3/h) at

Slipway, Clara Town and Duala. All the SSLS have been vandalized to the same extent during the war years with the surrounding environment also totally neglected.

The Sewage system is layout to operate on the principles that sewage is pumped from Duala and Clara town smaller SSLS, each with their own catchment area, Sayon town SSLS to Mesurado SSLS, Slipway SSLS pump to a topographical high which in turn drains towards Mesurado SSLS. The Mesurado SSLS does the same as Slipway SSLS and the Sewage then drains towards BTC from where it is lifted towards Fiamah WWTW. This old system is in poor structural condition. Pipes are broken and silted up and especially during the wet season they are surcharged, and sewage flows out of manholes and broken pipes.

The objective of the Sewage Lift Station and drainage Rehabilitation Project is to reinstate the 9 SSLS in Monrovia and re-commission them as part of City's sewer network system. Once the existing system is cleared and sewage flow to the SSLS, then it can be pumped to the WWTW.

Due to the historical situation all mechanical/electrical equipment and plant such as pumps, sliding rails, screens, valves and switch gear need replacing. Due to the electricity supply situation in the city generators would be required to substitute/supplement the network supply during power supply failures. No lighting is present and will also have to be provided. The project intends to to do the following:

- 1. Carryout condition assessments on the all the SSLS to ascertain its ability to function effectively
- 2. Prepare Designs and Specifications intended for SSLS improvements
- 3. Carryout requisite procurement processes for works
- 4. Rehabilitation Works
- 5. Rehabilitation of waste water treatment

The hubs over the years have built up law enforcement and justice capacities in the outlying regions, the hub represents a joint effort by the Government of Liberia and the UN Peacebuilding Fund to extend Liberian state authority. It was first piloted in Gbarnga, Bong County and it was extended to Zwedru, Grand Gedeh County. PROJECT OVERVIEW/DESCRIPTION

Rice is the primary staple food crop for all Liberians representing over 33% of their food consumption. It accounts for approximately 50% of adult caloric intake, with an annual per capital consumption estimated at 133kg. The crop is widely grown in almost every region in Liberia due to reliable and favorable climatic conditions. Over 400,000 Mt of rice is consumed annually in Liberia, of which over 50% imported into the country despite huge potential for local production. National demand has increased whilst local production has remained stable; the Government of Liberia is giving priority in its development planning to rice production as highlighted in the Liberia Agriculture Sector Investment Plan. This project intends to increase rice production and make locally produced rice competitive by adding value.

Given the social and political significance of rice in Liberia, there is a strong need for increasing domestic rice production. The intensive slash and burn system of production of food crops has reduced the levels of soil nutrients in the uplands, thus affecting the sustainability of rice production in the uplands. Whereas in the lowlands, the vast uncultivated land area, the abundant water resources and the climatic suitability offer greater potential for increased rice yields and multiple rice cropping cycles

This project aims to enhance agriculture production, promote sustainability practices, and empower smallholder's farmers to become self-sufficient and resilient to external shocks. Additionally, the project seeks to create market linkages and opportunities for smallholders farmers to sell their products and access better prices, thus improving their overall economic well-being.

Gender-based violence (GBV) is a pervasive issue that affects individuals in every community in Liberia. In order to address and combat GBV effectively, it is essential to have a coordinated and comprehensive response. One important component of this response is providing survivors and others impacted by GBV with access to support services and resources.

In light of the increasing need for support services related to GBV, the decision has been made to reactivate a national call center dedicated to providing assistance, resources, and guidance to individuals affected by GBV. This call center will serve as a critical lifeline for those in need, offering a confidential and supportive space for individuals to seek help, information, and guidance.

Annex 6: Gender Responsive Budgeting

Annex 8: Piloting Implementation of Gender Responsive Planning and Budgeting Policy

This annexure to the National Budget of FY2024 is prepared based on planned activities from the pilot entities and findings of several reviews, including recommendations of development partners.

The Gender Responsive Planning and Budgeting National Coordination Unit at the Department of Budget and Development Planning has coordinated and led the review processes of the budget cycle, with a deep dive into the FY2024 Annual Work Plans of the nine pilot entities under the GRPB implementation program. The National Development Plan (The President's ARREST Agenda) recognized the application of gender-responsive budgeting as a tool to cure the deficiencies of gender inequalities. Hence, this annex is intended to guide policymakers during the legislative scrutiny of the National Budget (NB) when making decisions. The primary objective will be used as the "gender lens during the legislative scrutiny.

In summary, the following achievements are noted: A peer learning and study visit was undertaken in Rwanda by a delegation comprising policymakers and technicians representing the Ministries of Gender Children and Social Protection, and the Ministry of Finance and Development Planning. The delegation met with the relevant stakeholders in Rwanda including the Ministry of Finance and Economic Planning, Ministry of Gender and Family Promotion, Gender Monitoring Office, Pro-Femmes, Rwandan Environmental Management Agency, and a field visit to the Karmonyi District as one of the decentralized local governments implementing GRPB program. The purpose of the visit was to learn from their experiences and interact with key actors involved in the design and implementation of the GRPB Program. The GRPB National Coordination Unit at MFDP remains functional, and operational and provides technical and administrative assistance to all nine members of the TWG during budget planning and execution. The budget execution rate for FY2022 is forecasted at 89.5%. This means eight of nine entities will have received full disbursements of their annual appropriations in the National Budget by the end of December 2022. Under the Fiscal Decentralization Program, an assessment of the PFM System was conducted in four Counties including (Margibi, Bong, Grand Bassa, and Nimba Counties). The objective of the assessment was to ascertain how functional, effective, and efficient the PFM System to supporting service delivery at the Local Government level. Secondly, it was intended to provide the basis for identifying entry points for expanding the implementation of the GRPB program at the Local Government level; a new Gender Budget Analysis and Reporting tool was introduced and initial training was provided for all nine pilot entities.

Despite the notable achievements above, several challenges confronting implementation continued to pose huge risks to sustaining the gains made. These challenges include a limited legal environment to implement GRPB interventions, a growing concern for staff retention, the administrative delay in incorporating the head of the Gender Unit on the Budget Management Committee, a lack of coherent approach and government-wide ownership of gender mainstreaming, inadequate awareness, and sensitization among policymakers and senior government officials as well as ordinary citizens, duplication of interventions by some development partners and NGOs, limited logistical and technical capacities are the current critical constraints on implementation.

For the ensuing year and beyond, the following will be pursued:

Now that the GRPB policy has expired, the Ministry of Finance and Development Planning and its partners are determined to continue the pilot program in FY2024 under a revised roadmap as indicated below:

- a. Continuous awareness and sensitization at both central and local levels of government, including political, managerial, and entry-level positions:
- b. Conduct a review of the GRBP National Policy implementation and produce a comprehensive end-of-implementation report
- c. Conduct training of key implementing officials at both the technical and policy levels of the pilot GRPB implementation program;
- d. Continue to incorporate Gender Profiles and Indicators into the Budget Calendar and the Budget Call Circular by the Ministry of Gender, Children and Social Protection. Issuance of Gender Budget Analysis Statements by each Spending Entity under the pilot program.
- e. Commission a peer review of the GRPB practices in Liberia
- f. Participate in the review of existing legal environments (Policies, drafting and the enactment of new pieces of legislation, amendment of existing laws, and development of sectorial strategies to strengthen implementation of GRPS consistent with good practices of other African nations
- g. Conduct Institutional and Capacity needs Assessment within the three counties to identify entry points for the rollout of GRPB, weaknesses, and capacity gap
- h. The National Coordination Unit on GRPB at the Department of Budget and Development Planning is currently coordinating the Consolidation of Annual Work Plan of all nine (9) pilot entities of the Technical Working Group on GRPB with the aggregate budgetary transfer of **US\$0.43 million** in FY2024. In order to achieve these objectives, continuous financial support through the National Budget is required as donor support is diminishing.

Annex-7: Fiscal Decentralization Transfers

Fiscal Decentralization Transfers County Development Funds (CDF) and Social Development Funds (SDF) are critical pillars of the Government's commitment to strengthening local ownership of service delivery decisions and public sector investment in the counties. The SDF is limited to counties that host concession companies, while the CDF gives each county a budgetary appropriation to support local development projects. It is allocated on an equal basis regardless of population, county size, and level of development. The CDF is captured in the budget law as a source of funding to (i) facilitate infrastructure development in all counties based on identified projects; and (ii) serve as a source of funding for local government service delivery to be managed by local officials under the decentralization program. The 2018 Local Government Act (LGA) specifies the legal basis for the transfer of CDFs (LGA 4.17) and SDFs (LGA 4.20) to the counties. In the FY2024 National Budget, the amount of US\$9.9 million is proposed for fiscal decentralization. From this amount, US\$0.2 million is proposed as County Development Funds (CDF) for each county, totaling US\$2.8 million. There is a forestry revenue sharing agreement of 40%, 30%, and 30% between the government, county, and the affected communities, respectively. In FY2024, there is a projection of US\$0.746 million for the affected areas in the respective Counties and Communities consistent with the Agreement Sharing.

Annex-8: Budget Reforms and Transparency Initiatives

Fiscal Transparency and Public Participation

The Government of Liberia continues to make gradual progress towards enhancing fiscal transparency across government and public participation in the national budget process. The first pre-budget consultations were piloted in five counties (Montserrado, Grand Bassa, Gbapolu, Nimba, Bomi) targeting more than 300 civil society representatives and citizens, including, including vulnerable and marginalized groups, such as disadvantaged groups, Persons with Disabilities (PWD), women groups, and the elderly amongst others. The Fiscal Transparency Advisory Group (FTAG) established in 2022 to advise Government on the selection, design, and implementation of fiscal transparency and public participation initiatives, is being expanded to include other relevant Civil Society Organizations and Spending Entities whose mandates and functions have implications on the Government's fiscal transparency and public participation indices. The group is made of equal representation of government- MFDP, the National Legislature (Public Accounts Committee and Legislative Budget Office), Public Procurement and Concession Commission (PPCC), General Auditing Commission (GAC), Bureau of State Owned Enterprises (BSE), and the Liberia Extractive Industry Transparency Initiative (LEITI) and civil society- the CSO Budget Platform, Center for Transparency and Accountability (CENTAL), Women NGO Secretariat of Liberia (WONGOSOL), Public Health Initiative Liberia (PHIL), Anti-Corruption Coalition, Community Development and Research Association (CODRA), Women Coalition on County Development Fund. During the approval process of the FY2024 Draft National Budget, the FTAG and other CSOs were provided opportunity to attend expenditure hearings. These efforts are a demonstration of the Government's commitment to implementing the recommendations of various fiscal transparency reports.

In this FY2024 Approved National Budget, the following expenditure priorities of the citizens have been considered by the Government: 1) increased funding for drugs and medical consumables from US\$4.7 million to US\$5.6 million, the disaggregation of the Ministry of Education to reflect public spending by county and deconcentrating financial management from central government to make more functional and operational of the County School Boards under the jurisdiction of the County Education Officer; US\$0.2 million for support towards vocational training programs; increased funding for the fight against illicit drugs and the continuation of the rehabilitation programs for vulnerable youth from US\$0.8 million to US\$3.6 million, increased support for GRPB implementation, and to address gender-based violence from US\$1.2 million to US\$1.8 million.
